

Binge Drinking

Questions

How is binge drinking affecting the lives of teens today.

Why is binge drinking bad for the body

Does binge drinking affect your lifestyle

How does binge drinking affect the lives of teens today

Binge drinking will affect the lives of teens today because they will lose out on jobs and their school grades will start to decrease and will create a worse life for them after school. They will most likely not make it into a collage or a real job after.

Why is binge drinking bad for the body

Binge drinking is bad for the body because it can start to deteriorate the liver/kidney and can slowly kill you over a long progressive time or shortened depending on how heavy you drink.

Does binge drinking affect your lifestyle

Yes it really does affect your lifestyle as you may not be able to get your driver's license or get a good job later on in life
